EDUCATION FACILITIES
- Basic Medical Laboratory
- Integrated Pre-Clinical Laboratory
- Integrated Clinical Dental Laboratory
- Laboratory of Nanotechnology Research
- Computer Laboratory (CBT)
- Library and Internet Access (Wi-Fi)
- Tutorial Room, Lecture, and Clinical Simulation /OSCE
- Scholarship Program and Development of Interest and Aptitude

Secretariat of The Faculty
Faculty of Dentistry
Universitas Brawijaya
Jalan Veteran Malang 65145
East Java, Indonesia

ACHIEVEMENTS
- The winner of National Students Science Week Competition
- The Winner of National and International Scientific Papers Competition
- 100% Graduation Rate of Professional Competent Test for Dentist (2014-2016)
VISION
To become renowned Dentistry institution with international standards in education, research, and community service which is based on Nanotechnology.

MISSION
1. Develop education, research, and community service especially in state-of-the-art, high quality, efficient, and nanotechnology-based dental science.
2. Produce entrepreneurial graduates in dental science who contribute to the society.
3. Develop competitive organization and management.

LEARNING STRATEGIES
Competent-based curriculum with learning approach which focuses on the students (Students Centered Learning):
1. Problem Based Learning
2. Case Based Learning
3. Interactive Lecture
4. Early Clinical Exposure
5. Preclinical Skill's Practice
6. Clinical Skill's Simulation and Practice
